

Name: Elliot Rosenberg

Date: 6.10.20

ID: 012779831

PART A: CURRICULUM VITAE

1. Personal Details

Permanent Home Address:	98 Harimon Street, Moshav Beit Gamliel
Home Telephone Number:	08-9422141
Office Telephone Number:	02-508-0443
Cellular Phone:	050-6242275
E-mail Address:	reli@netmedia.net.il
Personal Webpage:	None

2. Higher Education

a. Undergraduate and Graduate Studies

Period of Study (month/year – month/year)	Name of Institution and Department	Degree
9/76-6/78	Columbia University, Columbia College	BA
10/78-7/84	Tel-Aviv University, Sackler School of Medicine	MD
9/92-5/94	University of Washington, School of Public Health	MPH

b. Post-Doctoral Studies

Period of Study (month/year – month/year)	Name of Institution and Department/Lab	Name of Host
10/92-6/94	Cancer Prevention Research Program, Fred Hutchinson Cancer Research Center, Seattle, WA	Maureen Henderson
7/19-12/19	Behavioral Sleep Research Program and Center for Sleep Disorders, University of Arizona, Tucson, AZ	Michael Grandner and Sairam Parthasarathy
1/20-3/20	Behavioral Sleep Medicine Program	Michael Perlis

3. Academic Ranks and Tenure in Institutes of Higher Education

Period (month/year – month/year)	Name of Institution and Department	Rank/Position Specify if full or percent part time
10/92-6/94	Cancer Prevention Research Program, Fred Hutchinson Cancer Research Center, Seattle, WA	Fellow-Full time
7/19-12/19	Behavioral Sleep Research Program and Center for Sleep Disorders, University of Arizona, Tucson, AZ	Visiting Scholar-Full Time
1/20-3/20	Behavioral Sleep Medicine Program	Visiting Scholar-Full Time

For all remaining entries:

* Represents activities and publications since my **last appointment/promotion**.

4. Offices in Academic Administration

Years	Name of Institution and Department	Role
None		

5. Scholarly Positions and Activities outside the University

Year	Memberships in Academic Professional Associations
2019-2020*	American Association of Sleep Medicine

6. Conferences

a. Participation in International Conferences - Held Abroad

Date (month/year)	Name of Conference	Place of Conference (city & country)	Subject of Lecture/Discussion	Role
8/20*	SLEEP	Virtual (originally scheduled for Philadelphia)	Sleep, safety, and performance in Israel; Ethnic differences in sleep behaviors in Israel	Presenter of two posters

7. Invited Scholarly Lectures (other than in conferences)

Abroad

Year	Name of Forum	Place of Lecture (institute, city, country)	Subject of Lecture	Role
2019*	Professional meeting	Norwegian Institute of Occupational Safety and Health	Data-driven prevention of occupational diseases	Presenter of talk
2020*	Sleep grand rounds	Virtual (to attendees at the University of Pennsylvania)	The Role of Physical Activity in treating Insomnia and Obstructive Sleep Apnea	Presenter of talk
2020*	American College of Occupational and Environmental Medicine Webinar	Virtual	Return to Work after Covid-19	Panel Member and Presenter

8. Research Grants

a. Submission of Research Proposals – Not funded in the last three years

Years	Role in Research (PI, Co-PI, CI)	Other Researchers (Name & Role)	Title	Funds Requested Agency
2020	PI	Giora Pillar, Riva Tauman, Mordechai Alperin, Michael Perlis, Karen Klingman (all CIs)	Assessing the true burden of sleep disorders in the primary care clinic in Israel	150,000 NIS, Israeli National Institute for Health Policy Research

9. Teaching

a. Courses Taught in Recent Years

Years	Name of Course	Type of Course Lecture/Seminar/ Workshop/ Online Course/ Introduction Course (Mandatory)	Level BA/BSc/MA/MSc/ PhD/ etc	Number of Students
2017-18*	Introduction to Occupational and Environmental Health	Lecture	MPH	20
2018, 2018-19*	Safety and Risk Management	Lecture	MPH	15 (x2)
2019*	Sleep Health	Lecture	MPH	20

b. Supervision of Graduate Students

Name of Student	Name of Other Mentors	Title of Thesis	Degree	Year of Completion / in Progress	Student's Achievements
Master's Students*					
Hikmat Naamnih	-	The afternoon nap: an essential component of health?	MPH	70	Passed
Remon Sakhnini	-	Sleep and obesity in children and adolescents	MPH	2019	75

10. Miscellaneous

I spent the July 2019-March 2020 period on academic sabbatical in the US at the University of Arizona in Tucson, AZ, and the University of Pennsylvania, in

Philadelphia. I did not teach at the University of Haifa in either the Fall 2019 or Spring 2020 semesters.

PART B: PUBLICATIONS

The only new peer reviewed publication is listed in section B below, under “Articles”. 19 peer-reviewed articles were submitted in previous curriculum vitae cycles.

A. Other Works and Publications

1. Development of online teaching curriculum for family physicians in occupational Medicine
2. Development of lecture series teaching sleep medicine to family physicians
3. Chair and chief author of National Blueprint for the Advancement of Occupational Health, National Council for Occupational Health
4. Primary author or co-author of five chapters in the 2020 edition of the Clinical Guidelines for Health Promotion and Disease Prevention
5. Israeli Ministry of Health: Health Promotion and Disease Prevention Guidelines for the Working Population (ages 20-39 and 40-64)

B. Submitted for Publication

Articles

*Robbins R, Weaver MD, Quan SF, Rosenberg E, Barger LK, Czeisler CA, Grandner MA. Characteristics of worksites offering employee sleep enhancement and fatigue reduction programs: Analysis of the 2017 CDC Workplace Health in America Poll. In Press. *The American Journal of Health Promotion*.

C. Summary of my Activities and Future Plans

I am planning on developing my academic credentials in two areas: occupational health and sleep health.

Working with a professional committee from the National Council of Occupational Health, we developed a list of workplace exposures that have the potential to cause occupational disease. We will work with the MOH leadership to recommend to all the Sick Funds to adopt this list. In parallel we plan on developing a list of occupational diseases and their symptoms to facilitate epidemiologic analysis of these parameters as a function of workplace exposure. We also plan on utilizing these databases to assist non-occupational physicians to identify occupational disease in its early stages.

Another key project on which we have embarked entails assessing the needs of workers and employers in comparison with the staffing of occupational medicine clinics to enable us to determine the human resource occupational health needs of the country.

I will be teaching the Sleep Health course I developed in the Spring 2021 semester. In addition, I hope to work as a sleep physician in a major healthcare organization. This should provide insights and ideas both for teaching and research.

I plan to seek an alternative funding source for the primary care sleep burden study mentioned above. I have already recruited of both leading sleep professionals in Israel as well as the US, along with a family medicine department chair in the leading Israeli Sick Fund. Following that study, I hope to investigate the means to improve the diagnosis and care of patients with sleep disorders in the Israeli primary care system.

Finally, I wish to assess the health economics of sleep health to facilitate cost effective and hopefully cost-beneficial interventions for patients.

D. Publications in Preparation

Articles

1. A blueprint for the future of occupational health in Israel (adaptation of committee report for which I was chief author)
2. Israeli Workplace Health Risk and Needs Assessment: Development and Results of Pilot Testing
3. Health Correlates of Absenteeism and Presenteeism in the employees of the Israeli Ministry of Health
4. Sleep Duration and Sleep Disturbance Related to Obesity, Health, Motor Vehicle Safety, and Daytime Functioning in Israel: Data from the 2017 Israel Social Survey.
5. Jewish-Arab Disparities in Sleep Behaviors and Differential Ethnic Impact on Daytime Functioning, Driving Safety, and Health in Israel.
6. Association Between Sleep Duration and Daytime Memory and Cognition Depends on Sleep Quality: Data from the 2017 Israel Social Survey.
7. Sleep Disorders screening in Two leading Primary Care Healthcare Systems in the US: Prevalence of Diagnosis and Treatment in the Electronic Medical Record
