

Liora Ore MD, MPH

Liora Ore has an MD degree from the faculty of Medicine, The Technion Institute of Technology and MPH (Cum Laude) degree from the Hadassa school of Public Health, The Hebrew University of Jerusalem (1990). For more than 20 years, Dr. Ore teaches Epidemiology in various academic institutions, currently including the School of Public Health, University of Haifa, the Yzre'el Academic College and the Ort-Braude College of Engineering, Carmiel. She was promoted to the rank of senior lecturer in the school of public health, the University of Haifa in 2007.

She is board specialized in public health (Main branch Epidemiology) and has spent three years as an associate professor and researcher in breast and colorectal clinical trials (the NSABP) in the University of Pittsburgh, USA.

Dr. Ore was an acting deputy director of the department of community medicine and epidemiology, Carmel Medical Center, Haifa (1994-1997), and the founder and head of the department of clinical trials within a high-tech start-up company (1997-8). Since 2000 she holds the position of a deputy medical officer, head of department of research and informatics within the Ministry of Health, the Northern District.

Her research interests include: compliance with medical recommendations, including performance of screening tests and adoption of healthy lifestyle, mainly oriented to prevention of chronic diseases (cancer, cardiovascular, obesity). She has recently acts as a team leader, representing the school of public health in the Haifa Healthy City Program fighting obesity

Dr. Ore supervises graduate students for high degrees and she authored and co-authored more than 30 papers in peer-reviewed journals.

Articles Published in Refereed Journals

Notes:

For joint publications, the order of the listed authors appears according to their relative contribution

For joint publications with an MPH student (marked #) - according to the guidelines of the School of Public Health, the name of the student appear first
